DETAILED ACTION

1. Claims 1-17, 29-33, and 35-46 are pending in this communication entered as Appeals Conference Decision to Reopen Prosecution of 3/30/07.

Reopening Prosecution

2. In view of the Appeals Conference Decision on 01/22/07, **PROSECUTION IS HEREBY REOPENED** as set forth here below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) request reinstatement of the appeal.

If reinstatement of the appeal is requested, such request must be accompanied by a supplemental appeal brief, but no new amendments, affidavits (37 CFR 1.130, 1.131 or 1.132) or other evidence are permitted. See 37 CFR 1.193(b)(2).

Authorization has been given by the SPEs (Supervisor's) signature on the last page of this Office Action.

Drawings

3. The drawings are objected to because Figures 2-5 and 7-10 containing dark shading which needs to be removed. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being

amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1, 12, and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1, recites "... a selection of an entry in the variable price schedule from the user, ...;". There is not any process of the user selecting anything. Is the entry a selected price for the item? The claim limitations do not say selectable or the user selects anything.

Also, the last claim limitation recites "notifying the user when the entry in the variable price schedule is reached". It is unclear from the claim limitation how the user

Art Unit: 3694

is notified and the variable price schedule for what is reached because the user has not selected anything in order to be notified and for a variable price schedule to be reached.

Claim 17 has a similar problem.

Claim 12, has a similar problem with "a plurality of reminder request controls and the same item identified" because there has not been any process for the identification of an item prior to this limitation. It is unclear who or what is identifying the item.

Claims 2-11, 13-16, 29-33, and 35-46 are also rejected because of their dependency from a rejected base claim.

Conclusion

6. Once these issues have been resolved and an updated search preformed and if no new art is found to reject the claims, the application will be allowed.
